Re: "Time For Ta Kela"; 2020 Chestnut Thoroughbred filly

To Whom It May Concern:

The above referenced horse presented to our hospital in May 2021 and was diagnosed with bilateral osteochondritis dissecans of the lateral trochlear ridge of the femur. The condition was treated with bilateral stifle arthroscopy. The filly recovered well from anesthesia and during the post-operative period.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephanie S. Caston". The signature is fluid and cursive, with the first name "Stephanie" written in a larger, more prominent script than the last name "Caston".
